

by MNEMONICS, INC.

AVIA™ Computer Automated Proofreading Systems

MNEMONICS' AVIA proofreading products verify that product information documents and printed components conform to their design in content and quality at every step in document development and production.

All AVIA Systems Include:

- On-Site Installation and Training at customer site.
- AVIA Proofreading Software Single End User perpetual license and 1-Year MNEMONICS' Software Warranty, Support & Update Services.
- AVIA System PC & 20" LCD Monitor with 3-Year Manufacturer's On-Site Warranty, MS Windows 7 Ultimate or XP Pro SP 3, MS Office Basic and Adobe Acrobat Standard.
- Customer's selection of Color Scanner, including calibration & qualification testing and 1- or 2-Year Manufacturer's Warranty.

AVIA Proofreading System

with a 36-inch Wide Format Color Scanner

42-inch & 54-inch Wide Format Scanners also available.

AVIA Proofreading System

with an A3 Tabloid (11.7"x17.7") Flatbed Color Scanner

AVIA Features

- Compares any combination of electronic files and scanned documents: PDF, electronic image format files, scanned documents, proofs, bluelines, plates, inserts and labels.
- 36" by 48" documents are compared in less than 30 seconds.
- AVIA inspects all aspects of a document – text characters of any language as well as graphics, chemical formulae, charts and pictures.
- The system corrects for paper stretch and ink bleed through as well as other printing distortions.
- All disparities greater than a specified size and contrast are located, marked, ranked and tabulated.
- The system generates HTML and PDF reports for sharing results.
- FDA 21 CFR Part 11 Compliant.
- Validation documentation and customization services available.
- May be configured to communicate via intra- and inter-site networks; multiple AVIA workstations can share multiple scanners across networks.

Options

AVIA Color Matching™ Module

- Pantone® color comparison provides color calibration and test functions for evaluating printed samples and reports the closest PMS color in the calibration chart.
- Pantone Solid Chips three-book set.
- Standard calibration sheet template.

AVIA CFR 21 Part 11 Compliance Package

- Compliant with FDA CFR 21 Part 11 electronic signature regulatory requirements.
- Three user levels (administrator, setup, and operator).
- Auditing and archiving of inspections are captured for use in data management.
- Compliance Auditor and Compliance Viewer.

AVIA Validation Package

- Validation documents and protocols in PDF and Microsoft Word for user modification.
- Documents: Build and Install, Manuals, Training Documents, and Validation Test Documents, including modifiable Excel spreadsheets.
- Allows the user to build their validation protocols from the documentation provided.

AVIA Private Eye™ Anti-Counterfeiting Module

- Integrated hardware and software module for use in investigating product packaging suspected of being counterfeit.
- Enables examination and comparison of authentic and suspect packages.
- Add-on option for AVIA providing additional features including expanded annotations and true-color image export functions for word processing, presentation or image management software.
- Stored session settings can be used to reopen cases for further analysis.
- For AVIA Proofreading Systems with flatbed scanners.
